

KLOVE serves me as a resident of my local community by providing me peace when I'm driving. I won't have road rage while listening to KLOVE, nor do I suspect anybody who listens would. If KLOVE were to be displaced by an LPFM programmer and subsequently I wouldn't have KLOVE, my driving experience would be diminished greatly. I believe KLOVE is in the public interest because of the peace and joy that listening to it brings. The songs played on KLOVE are truly positive and encouraging and great for the kids (mine are learning to sing along now) and there are no commercials so it truly is my favorite radio station.
